

JEEP® CHEROKEE

AUTHENTIC JEEP® BRAND DNA.

The Jeep® Cherokee raises the bar with supreme on-road handling, efficient fuel economy, inherent Jeep® 4x4 capability and class-defining technology. With its legendary Jeep® brand DNA, Cherokee is perfectly engineered to excel in any situation and on any terrain, allowing you to experience the best of both worlds.

EUROPEAN DESIGN.

The Jeep® Cherokee successfully combines a futuristic design with legendary heritage. Its aggressive wheel-to-body proportion and commanding road presence looks impressive even to the most demanding eye. Developed by European designers, the fluid, sleek exterior lines highlight the efficient upper body of the Cherokee. The rugged, protective lower body conveys the legendary capability that is a characteristic of every Jeep®, making the Cherokee efficient and capable on varying terrains and weather conditions. The new Jeep® Cherokee Overland top of the range version features body coloured lower fascia and side skirts, offering a new level of sophistication.

Model shown Cherokee Overland

MADE TO HIT THE MARK.

Every sculpted inch of the Cherokee has been thoughtfully designed to be efficient and capable. The attention to detail is clear, starting from the traditional seven-slot grille that remains true to its Jeep® brand roots, with daring, sleek daytime running lamps; communicating the next generation of safety and design distinction. In addition, the available CommandView® dual-pane sunroof (standard on Overland) offers a panoramic view day or night, incorporating a power sliding glass front panel and a fixed glass panel with power sunshade in the rear.

and optional CommandView® dual-pane sunroof

THE CHEROKEE SOUL HAS NEVER BEEN SO FIGHTING FIT.

The Cherokee interior offers a sophisticated blend of hand-sculpted fluid shapes, high-quality soft-touch materials, innovative colour and interior choice, precision craftsmanship and state-of-the-art technology. The Nappa Leather interior, for instance, or the wooden steering wheel (standard on the Overland version). A world of unique perfection is just waiting to be discovered.

Black Morocco Leather with Overland stitching

DISCOVER A WORLD-CLASS INTERIOR.

Luxury is at the forefront of the Cherokee interior. Its driver-oriented cockpit is loaded with easy-to-use, advanced technology. Leather trimmed, power-adjustable, heated and ventilated seats are standard on the Limited and Overland versions. The Overland version features the finest Nappa Leather trimmed seats, embroidered with Overland logo, and anodised silver trim. The easily adjustable 60/40 split second-row seats with reclining seat and slide adjustment increase passenger comfort and allow greater flexibility of storage space.

Model shown Cherokee Overland with Pearl Nappa Leather and Overland stitching.

A NEW CLASS OF CHEROKEE.

The Jeep® Cherokee Trailhawk, a car that exemplifies Jeep® 4x4 capability with a distinctive, aggressive look. Reserved for the most capable Jeep Cherokee model and the most capable mid-size SUV in the segment. Thanks to its 9-speed automatic transmission which performs with strong, smooth precision, and the powerful 3.2L Pentastar® engine, the performance figures all add up:

The Jeep Cherokee Trailhawk boasts an approach angle of 29.9 degrees, a departure angle of 32.1 degrees and a breakover angle of 22.9 degrees. Running ground clearance is 22.1 cm. Performance personified.

The 'Trail Rated' badge on the Jeep Cherokee Trailhawk indicates that the vehicle is designed to perform in a variety of challenging off-road conditions identified by five key consumer-orientated categories: traction, ground clearance, maneuverability, articulation and water fording.

THRILLING PERFORMANCE IN COMFORT

The Trailhawk features aggressive approach and departure angles, complements of the unique front and rear fascias, increased ground clearance and skid plates. Jeep® Active Drive Lock provides locking rear differential and Selec-speed® control (off-road 'cruise control') maximising off-road performance. The locking rear differential is selectable in any low range terrain mode, but will lock automatically when in certain modes, such as 'Rock', to maximise traction.

Yet this boundless performance is carried out in absolute comfort: the interior of the Trailhawk provides seats which are ergonomically designed to support the contour of the body as the car moves over testing terrain and are trimmed with premium quality Nappa leather.

CLASS-DEFINING 4X4 CAPABILITY.

The Cherokee takes its legendary 4x4 capability to the next level. Thanks to its Jeep[®] brand DNA it has been purposefully designed to adapt to any surroundings with inborn confidence. On the diesel range, choose from two new 4WD systems: the single-speed, fully automatic Jeep[®] Active Drive I and the two-speed Power Transfer Unit (PTU) Jeep[®] Active Drive II, offering torque management and low range.

The 3.2 V6 Petrol Trailhawk offers class defining off-road capability, with the Active Drive Lock 4WD System. This Trail Rated[®] version offers a mechanical rear axle lock and Jeep's unique Selec Speed[®] Control System.

All Cherokee 4WD systems possess the rear-axle disconnect system, which engages 4x4 only when required to maximise fuel economy.

TACKLING MOTHER NATURE’S TOUGHEST CONDITIONS.

The Selec-Terrain® System (4WD models only) allows the driver to choose the on and off-road setting for optimum performance to help successfully navigate specific road conditions. Selec-Terrain® offers a minimum of four customised settings: Auto, Snow, Sport and Sand/Mud. Selec-Terrain electronically coordinates and optimises systems on any terrain providing enhanced vehicle control. Active Drive II (Limited automatic and Overland versions only) adds low range selection and hill-descent control to the Selec-Terrain® System. The Trailhawk model features Jeep Active Drive Lock 4WD. Trailhawk also adds Rock mode to the Selec-Terrain® system for highly capable off-road manoeuvring allowing you to cross rugged terrain at appropriately safe speeds.

GO ANYWHERE. DO ANYTHING™.

The Jeep® Cherokee is the first mid-size SUV* to feature rear-axle disconnect, resulting in reduced energy loss when 4x4 capability is not required, thereby improving fuel efficiency. The rear-axle disconnect seamlessly switches between two-wheel and four-wheel drive for full-time torque management and does not require input from the driver. Thanks to its refined and efficient 2.0 or 2.2 litre Turbo Diesel engine, it can take on rugged terrain and road traffic with equal assurance.

2.0L & 2.2L TURBO DIESEL

The 140hp 2.0 litre turbo diesel engine with MultiJet II technology is mated to a 6-speed manual transmission with 2WD or 4WD Jeep® Active Drive I system. This engine is available on all trim levels, producing 350 Nm of torque at 1,500 rpm. Alternatively, on Longitude and Longitude + models, choose the 4WD 9-speed automatic version with the new 185hp 2.2 litre engine and 440Nm of torque at 2500 rpm.

The Limited and Overland models enjoy the new 2.2 litre 200 hp turbo diesel engine which is matched to the 9-speed automatic transmission and offered with either Active Drive I or Active Drive II 4WD systems. All versions have the Stop/Start system which helps reduce fuel consumption and CO₂ emissions. As a result, the 2.2 litre 200hp engine has an impressive combined fuel consumption of 50.4 mpg and CO₂ emissions of 149g/km. ^

3.2L V6 PENTASTAR® (TRAILHAWK ONLY)

The new 3.2L Pentastar V6 engine offers a refined driving experience and an exceptional balance of higher specific power output. The 3.2L Pentastar V6 engine goes together with its 9-speed automatic transmission matched with the Jeep® Active Drive Lock 4x4 system.

*Mid-size SUV – classified by Jeep as overall length 4.5 metres to 4.8 metres.
^From April '16 production (6CE).

ON ROAD REFINEMENT.

The Jeep® Cherokee was the first mid-size SUV* in the segment to feature a 9-speed automatic transmission for added driving pleasure and efficiency. Electronic Range Select supports a manual shifting capability with the AutoStick function which includes over 40 individual shift maps for specific conditions to help maximise efficiency, performance and drivability. Performance is attuned to nearly any driving condition, both on and off-road and gear shifts are barely noticeable on all terrain types.

*Mid-size SUV – classified by Jeep as overall length 4.5 metres to 4.8 metres.

DRIVING TOMORROW'S TECHNOLOGY TODAY.

Rule the road ahead from a very comfortable and informed vantage point. Cherokee's advanced technology delivers information keeping everything on track; providing the freedom to head out with confidence.

Keep connected, informed, entertained, and more productive with the Uconnect® system. Connect compatible media devices or display photos on the Uconnect® screen via the USB port, SD media card, or auxiliary port. Optional on Longitude, but standard on Longitude+, Trailhawk, Limited and Overland, the 8.4" touch screen is conveniently positioned front and centre, offering a range of entertainment features and services, including voice command navigation, hands-free phone calls, climate control, and more.

EASY TO USE TECHNOLOGY.

The 7" TFT reconfigurable instrument cluster (Limited, Overland and Trailhawk only) allows the driver to enjoy a customised user experience and receive vehicle information and feedback in a preferred format while keeping their hands on the wheel and eyes on the road.

The driver can select from a multitude of information displayed in the centre of the gauge cluster, including turn-by-turn navigation, speed, real-time fuel economy, safety warnings, available Adaptive Cruise Control-Plus, audio information and Jeep® specific features including Selec-Terrain™.

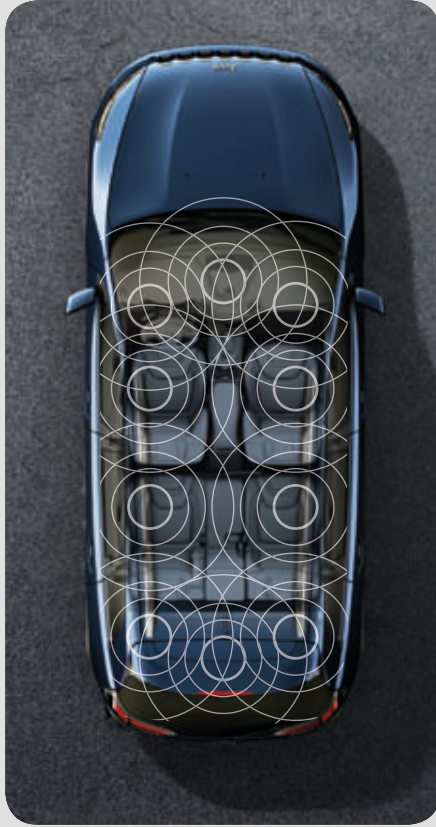

The optional Parallel/Perpendicular Park Assist System (Limited Automatic, Overland and Trailhawk versions only) is displayed in the centre of the gauge cluster and operated with buttons on the steering wheel and the AutoStick. The graphic takes the driver through the steps necessary to utilise the park assist system.

INNOVATIVE TECHNOLOGY.

On board comfort exceeds all expectations; Cherokee offers a range of intelligent and high-level technology systems to enhance the driving experience.

ALPINE PREMIUM AUDIO SYSTEM†

Cherokee's premium 9-speaker sound system with an eight-inch subwoofer, has been designed in tandem with Alpine®, the leading manufacturer of high-performance mobile electronics. The system's 11 channels pump sound by way of 506 watts of power for a dynamic audio experience during your journey.

PEACE-OF-MIND SAFETY & SECURITY.

Over 60 standard and available safety and security features add to Cherokee's strength and capability. With many controls located on the steering wheel, safety is literally fingertip controlled.

Forged from 65 per cent high strength steel, a full range of available features have been built on this sturdy foundation to deliver 5-Star EURO NCAP Safety. Class-leading options include: Adaptive Cruise Control Plus, Parallel and Perpendicular Park Assist, LaneSense® (Lane Departure Warning Plus) and Forward Collision Warning-Plus with mitigation*.

* Standard on Limited, Overland and Trailhawk versions.

† Only available with Satellite Navigation - Standard on all versions excluding Longitude.

*Subject to model chosen.

Model shown Cherokee Limited
True Blue colour shown, has restricted availability.

ADVANCED SAFETY SYSTEMS.

PARALLEL AND PERPENDICULAR PARK ASSIST.*

This active guidance system controls steering automatically using ultrasonic sensors that help when easing into parking spots (includes ParkSense® front and rear park assist sensors with rear ‘Stop’†).

ELECTRONIC STABILITY CONTROL (ESC).

A vehicle-wide network of safety sensors helps maintain vehicle control, providing instant aid should they detect the vehicle is veering off the intended path. ESC coordinates Electronic Roll Mitigation (ERM), antilock brake system (ABS) and Brake Assist, All-Speed Traction Control and available Trailer Sway Control (TSC), sending them into action when needed.

ELECTRONIC ROLL MITIGATION (ERM).

As an extension of ESC, ERM employs ESC sensors to anticipate potential risk situations. If things get rough, ERM takes immediate action to help maintain stability and remain under control.

* Optional on Limited Automatic, Overland and Trailhawk versions only (Technology Group).

† Optional on Longitude, Longitude+ & standard on Limited, Overland and Trailhawk.

(2)LANESENSE® (LANE DEPARTURE WARNING-PLUS).*

The vehicle lane position is monitored by cameras and, should the driver drift outside of lane boundaries without indication, or if the driver’s hands are off the wheel, the system provides a visual and audible warning.

BLIND SPOT MONITORING AND REAR CROSS-PATH DETECTION.*

These safety sensors constantly monitor the space between all vehicles in the vicinity. When a side or rear blind spot is encroached, the driver is notified via illuminated icons on side view mirrors or an audible chime.

7 STANDARD AIR BAGS.

Full-length side-curtain driver and front-passenger inflatable driver knee-bolster air bag, seat-mounted for front occupant’s side thorax and advanced multistage front air bags all work in tandem to help provide protection.

(1)ADAPTIVE CRUISE CONTROL WITH STOP & GO.*

Take the guesswork out of keeping a safe distance from the car ahead while travelling on the motorway. The system automatically adjusts cruising speed to maintain a pre-set distance from the vehicle in front and can bring Cherokee to a complete stop without driver intervention to help avoid collision.

RAIN BRAKE SUPPORT.

This system automatically helps maintain optimal braking by keeping brake rotors dry in rainy conditions, with assistance from the Electronic Stability Control (ESC).

FORWARD COLLISION WARNING-PLUS WITH CRASH MITIGATION.*

Radar sensors detect when Cherokee may be approaching another vehicle too rapidly and send an audible and visual alert to the driver along with providing 1.5 seconds of brake assistance if the driver does not react in time.

TRAILER SWAY CONTROL (TSC).

As part of ESC, TSC helps keep the vehicle and the load being towed, safely on course.

(1) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice, and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. ACC is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. FCW system is solely an alert system for the front of the vehicle that does not take any actions to change vehicle dynamics to avoid a collision, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions.

(2) Always check visually for vehicles prior to changing lanes.

CUSTOMISE YOUR FREEDOM.

Choose from the range of Authentic Jeep® Accessories from Mopar® especially made for Cherokee. All designed to make Cherokee match any lifestyle.

MAKE IT PERSONAL.

AUTHENTIC JEEP® ACCESSORIES

Whether climbing rugged hills or cruising motorways, raise the profile and capability of your Cherokee with Authentic Jeep, Accessories from Mopar®. These quality-engineered parts and accessories keep the Cherokee as authentic as the day it was purchased. For a true, seamless fit and finish, select exact colour matches and high-quality material. New and exciting Mopar® accessories for Cherokee are always in development, including load management systems, towing accessories, convenience and protection products, and much more.

LONGITUDE

- Uconnect 5" DAB Radio with touchscreen, Bluetooth®, USB and Integrated Voice Command
- Audio jack input
- 6 Speakers
- Instrument cluster with 3.5" display
- ParkSense® rear park assist (sensors)
- Anti-lock 4-wheel disc brakes with brake stability control
- Electronic parking brake
- Electronic power steering
- Tyre pressure monitoring display
- Steering wheel audio controls
- Stop & Start
- Remote central locking
- Electronic stability control (ESC) with hill start assist, electronic roll mitigation, trailer sway damping and traction control
- Thatcham group category 1 alarm
- Enhanced accident response system (EARS)
- Dual zone climate control
- Cruise control
- 8-Way power adjustable front seats^ with 4-way powered lumbar adjustment
- Child seat anchor system-latch ready (ISOFIX)
- 7 Airbags: side airbags on front seats, front and rear curtain airbags, next generation front airbags, driver knee bolster airbag.
- Speed sensitive power locks
- Passenger in-seat cushion storage
- Front passenger fold flat seat
- Rear view auto dimming mirror with microphone
- Removable Ashtray and Cigar lighter
- Light sensitive automatic headlamps
- Rain sensitive windscreen wipers
- Cargo Net
- Power tailgate (remote operation and button in cargo area)
- Rear 60/40 folding, split, reclining seat with slide adjustment

^Power adjustable passenger seat is standard on Longitude models from Mar '16 production onwards. N.B. Longitude and Longitude+ models built before April '16 have a single disc remote CD player as standard.

- Leather wrapped steering wheel, satin chrome gear knob and ambient LED interior lighting (door handles, map pocket, cup holder, centre console)
- Front and rear floor mats
- Sliding sun visors with illuminated mirrors
- Chrome window and grille surrounds, exhaust tip and side roof rails.
- Front overhead map lamps, rear courtesy lamps, LED tail lamps and LED daytime running headlamps
- Body coloured shark fin antenna, exterior mirrors and door handles
- 17" Aluminium wheels with 225/60 R17 tyres
- Tyre service kit
- 12V Cargo and auxiliary power outlet
- Jeep cargo management system, cargo tie down loops
- Parcel shelf cover
- Active Drive I 4x4 (4WD Manual and Auto models only)

- Additional Trim on Longitude Automatic (Standard)**
- Leather wrapped gear knob
 - Dual integrated exhaust tips
 - 9 Speed automatic transmission

LONGITUDE+

- Includes all Longitude features and adds or replaces with:**
- Uconnect 8.4" DAB Radio with touchscreen, Bluetooth®, USB, Satellite Navigation and Integrated Voice Command
 - Alpine® sounds system with 9 Amplified speakers subwoofer

WHEEL

- 17" aluminium wheels
- 18" aluminium wheels (optional)

LIMITED

- Includes all Longitude+ features and adds or replaces with:**
- Premium instrument cluster with 7" colour TFT display
 - Remote USB Port
 - Personal memory settings for radio, driver seat, mirrors and heating/ventilation/climate control
 - Park assist: ParkSense® front and rear park assist (sensors) with rear 'Stop' function; power, multi functional foldaway mirrors.
 - ParkView® rear back-up camera
 - Keyless Enter'N Go™
 - Premium Nappa leather trimmed bucket seats and premium interior accents
 - Ventilated and heated front seats
 - Exterior mirrors with memory
 - Deep tinted sunscreen glass (privacy glass)
 - High Intensity Discharge (HID) Bi-Xenon headlamps
 - Automatic headlamp levelling system
 - Headlamp washers
 - 18" polished aluminium wheels with 225/55 R18 tyres
 - Active Drive I 4x4 (4WD Manual and Auto models only)
 - Active Drive II 4x4 with 2 speed PTU (low range 2:72:1) (available on 4WD Auto only)

WHEEL

- 18" aluminium wheels

OVERLAND

- Includes all Limited features and adds or replaces with:**
- Body colour front and rear fascias, wheel arches, lower cladding and door sills
 - CommandView® dual-pane sunroof
 - Leather wrapped heated steering wheel with wooden insert
 - Nappa Leather seats with unique Overland logo
 - Premium Berber floor mats
 - Door sill guards with Jeep® logo and Overland trim interior accents

WHEEL

- 18" aluminium wheels

TRAILHAWK

- Includes all Longitude+ features and adds or replaces with:**
- Keyless Enter'N Go™
 - Hill descent control
 - Selec-Speed® control
 - Jeep Active Drive Lock
 - Off-road suspension
 - Full size spare tyre with steel wheel
 - Protection Plates (Underbody, Transmission, Fuel Tank & Front Suspension)
 - Deep tinted sunscreen glass
 - Dark Grey Metallic exterior mirrors
 - Accent colour grille surrounds
 - Rear fascia skid plate applique
 - Accent colour roof rails
 - Red interior stitching accents
 - All-season floor mats
 - Power multifunction fold away mirrors
 - Trailhawk logo, console netting
 - 17" aluminium wheels with 245/65R17 all-season tyres
 - USB remote port
 - Instrument Cluster with 7" TFT colour display
 - Nappa Leather Interior trim (Morocco with red stitching)
 - 9 Speed automatic transmission with 2 speed power takeoff (low gear range)
 - High intensity discharge headlamps (HID bi-xenon) with headlamp washer
 - Ventilated and heated front seats
 - ParkSense® front/rear park assist with rear stop
 - 3.2 V6 Petrol engine
 - Black bonnet decal
 - Black window surrounds
 - Off road wheel flares
 - Rear Power Outlet*

*Requires adaptor

WHEEL

- 17" aluminium wheels

N.B. Limited and Trailhawk models built before April '16 have a Wireless Charging Pad as standard. Vehicles built before March '16 do not have a Powered passenger seat as Standard. Please consult your local Dealer.

IMPORTANT NOTES: Traversing water can cause damage that may not be covered by the new vehicle warranty. Always off-road responsibly in approved areas. Phone must support Bluetooth Phone Book Access Profile (PBAP). Advanced Front Air Bags: Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly.

Technical specifications and equipment are correct at time of going to print (12/15). Please refer to jeep.co.uk for latest versions. Trailhawk specification refers to 2016 model year.
